The Ultimate Solution for Home & Office Surveillance

The WizeCam is an integrated IP camera solution. It is using a single chip to implement media processing with the integration of audio & video, network transmission in one camera. This provides an extremely high definition, high integration and low cost solution for a LAN/WAN-based remote video monitoring device.

Including Night Vision, Pan & Tilt, Wi-Fi or Lan connection, the IP Camera is the perfect match for home or office surveillance.

The product features easy installation and simple operation.
